No. C.G. 10-

Station Camp Trichinopoly, *Dated the* 23nd February 1936.

From (Name) Lieut-Col. M.M. Khan, I.M.S.,
(Designation) A.g. Inspector-General of Prisons.

To The Secretary to the Government of Madras,
Law (General) Department.

Sir,

I have the honour to state that the drinking water supply at the Subjail, Mangalore, is being obtained from a well in the warders' compound attached to that Jail. This well being very deep, the water had to be pumped out by means of a force pump, worked by manual labour. From a perusal of the correspondence, it is observed that the pump in question was a second hand one at the time of purchase and that it was supplied from the stores stock of the Public Works Workshops and installed by the Executive Engineer, West Coast Division, Calicut, in the year 1924, at a cost of Rs.671-5-0. This pump seems to

have been giving constant trouble ever since 1929 and had to be repaired several times, the parts having badly worn out. The Industrial Engineer, Coimbatore, who inspected the pump has declared it unfit for further use and has thus condemned it. Further, the cost of repairs to the pump being prohibitive, it was considered advisable to go in for a new pump. Accordingly, the Superintendent of the Jail seems to have addressed the Executive Engineer, West Coast Division, Calicut, the Director of Industries, Madras, and the Chief Controller of Stores, Indian Stores Department, New Delhi, for an estimate of cost of a new pump. The Chief Controller of Stores, it is stated, for an order, appears to have directed Messrs. Jacob and Co., Calcutta, to supply a pump, which is styled as 'Jacob's New Designed Universal deep well hand pump 5" x 10" size" at a cost of Rs.1,C36/- f.o.r. Mangalore. The pump has already arrived at Mangalore on 4th February 1936 and is kept in the Jail unpacked at the risk of the company.

Under the circumstances stated above, I request that the Government may be pleased to accord their sanction to the purchase of the pump for the Sub Jail, Mangalore, at a cost of Rs.1,C36/- including packing and forwarding charges. The initial expenditure will be met from the Budget appropriation under A.3. Sub Jails - A.1.4 Other Supplies and Services - Tools and Plant, during 1936-1937, and supplemented by re-appropriation, if and when additional funds are required.

I have the honour to be,

Sir,

Your most obedient servant,

Khan

Lieut-Col, I.M.S.,
Ag. Inspector-General of Prisons.

Cf (C No. 1143C) From the Inspector General of Prisons, No. C.S.10 of 23.2.36

Subject: Sub jail, Mangalore. Water supply - Purchase of a well pump.

As...

In the circumstances explained by the Inspector General in his letter under ref 1-2 cf, the purchase of a pump for the well in the Sub jail, Mangalore may be accepted. A draft order sanctioning the purchase is submitted. It may be sent to Finance for acceptance."

Finance (Exp).

The proposal in the present case is to sanction the purchase of a pump for the well in the warder's compound attached to the sub jail, Mangalore, for the supply of drinking water for the inmates of the sub jail. ~~at Mangalore~~.

Drinking water is now supplied to the sub jail from this well. But it is stated that the existing pump which was a second hand one was installed in 1924 and that it had been declared unfit for use by the Industrial Engineer. The Superintendent of this Jail seems to have addressed the ~~Industrial~~ Executive Engineer, West coast division, Calicut, the Director of Industries, Madras and the Chief Controller of Stores, Indian Stores Department, New Delhi, for an estimate of cost of a new pump. The Chief Controller of Stores, taking it by mistake for an order, directed Messrs Jessop & Co, Calcutta to supply a pump which had been received on 4-2-36. The cost is stated to be Rs 1,065.

It seems that the cost involved is large and if the pump had been purchased at Madras, the cost would have been less. In any case, there was no justification for the Chief Controller of Stores to order the supply of pumps, when an enquiry was made as regards the cost and no definite order was placed with him. Law (General) may be requested to call for the original records ~~get a copy of the correspondence from the I.G. of Prisons~~ and see if the Superintendent of the Jail gave room for any reasonable doubt in his letter to the Chief Controller of Stores. If he merely asked for an estimate of cost and if the Chief controller of stores was responsible for supplying the pump, it seems that it may be pointed out to the Chief Controller that his action in supplying the pump was not proper

2 As the pump is stated to have been received at Mangalore it is presumably out of question now to return it.

Sanction may be accorded for its purchase. ~~This department need not object to it.~~

3. As the pump is only a replacement of the old one, this need not be placed before the Finance Committee, as a scheme of new expenditure.

See pp.1-2 C.F.

4. The I.G. of Prisons says that the initial expenditure will be met from the Budget appropriation under "25.a.E. Sub Jails - 4. Other supplies and Services - Tools and Plant" during 1936-37 and supplemented by reappropriation, if and when additional funds are required.

p.2 C.F.

The pump has already been supplied and it is not regular to postpone an inevitable payment- vide Article 30 B of M.F & A.C, Vol.I. The I.G. may be informed that the payment for the pump should be made in the current year. If eventually there is an excess for want of an appropriation, it will have to be explained in due course when the Appropriation Accounts for the year are prepared.
